LETTER OF INTEREST

MERCURY - Desktop Multi-Material 3D Printer | Founding 100 Programme

Designed, engineered and manufactured in India

Dear Sir / Madam,

Makerise Innovations Private Limited, operating under the brand MAKEVERY, is an Indian deeptech additive manufacturing company. We are pleased to invite you to register your interest in MERCURY - our desktop multi-material 3D printer, developed specifically for the fabrication of prosthetic and orthotic (P&O) devices - under our Founding 100 Programme.

1. About Mercury

Mercury is a desktop-format multi-material 3D printer that enables the direct fabrication of patient-specific prosthetic and orthotic components from digital scan data, reducing dependence on the conventional plaster-casting and hand-finishing workflow. It is built around our proprietary in-situ material mixing and deposition technology.

- Patient-specific liners, cushions and socket interface components printed directly from scan data
- Custom insoles, footwear inserts and pressure-relief padding
- Orthotic pads, straps and compliant components for AFO, KAFO, wrist-hand and spinal braces
- Multi-material deposition enabling graded stiffness - firmer support zones and softer relief zones in a single build
- Desktop footprint suitable for clinic-side or workshop use, with standard single-phase power
- Open material workflow with in-situ mixing, allowing shore-hardness and formulation to be tuned per patient

2. Made in India

Mercury is indigenously designed, engineered and assembled in India by an Indian company. We are committed to reducing the sector's dependence on imported capital equipment and to making advanced P&O fabrication affordable and accessible across the country. Domestic manufacture also means locally available spares, service engineers, training and support - without import lead times, customs delays or foreign-exchange exposure.

3. Founding 100 Programme - Introductory Pricing

As a founding-customer initiative, the first one hundred (100) units of Mercury are being offered at a special introductory price of INR 1,00,000 (Rupees One Lakh only) per unit, exclusive of GST, freight, insurance, installation and optional accessories. This price is available strictly to the first 100 confirmed orders, allocated on a first-come, first-served basis against receipt of a confirmed purchase order and applicable advance payment. Once the allocation is exhausted, standard list pricing will apply.

4. Purpose of This Letter

This Letter of Interest is intended solely to gauge your interest and to help us plan production, service coverage and training capacity. Kindly complete Section A below and return a signed copy to us. Your details will be used only to contact you regarding this programme and will be handled in accordance with our Privacy Policy and the Digital Personal Data Protection Act, 2023.

SECTION A - RESPONDENT DETAILS (to be completed by the interested party)

Full Name	
Profession / Designation	
Company / Organisation Name	
Nature of Organisation	☐ P&O; Clinic ☐ Hospital ☐ Rehab Centre ☐ Academic / R&D; ☐ Manufacturer ☐ Individual Practitioner ☐ Other: _____
Do you reside in India?	☐ Yes ☐ No - Country: _____
City / District & State	
Full Postal Address	
Email Address	
Mobile / WhatsApp Number	
GSTIN (if applicable)	
Intended Application	☐ Prosthetic sockets ☐ Orthoses (AFO / KAFO / spinal) ☐ Insoles & footwear ☐ Assistive devices ☐ Research & teaching ☐ Other: _____
Approx. monthly device volume	
Number of units of interest	
Expected procurement timeline	☐ 0-3 months ☐ 3-6 months ☐ 6-12 months
How did you hear about us?	
Remarks / Specific requirements	

SECTION B - DECLARATION

I confirm that the information provided above is true and correct to the best of my knowledge. I understand that this Letter of Interest is an expression of interest only and does not constitute a purchase order, a binding contract, a reservation, or any commitment to buy or to sell. I further understand that any eventual supply shall be governed exclusively by a separate written quotation, purchase order and the Company's Terms and Conditions of Sale, and that specifications, pricing, availability and delivery timelines are indicative and subject to change without notice.

I acknowledge that Mercury is a manufacturing platform and not a finished medical device, and that the regulatory clearance, clinical validation, fitting, safety and end-use suitability of any device produced on it remain the sole responsibility of the manufacturer, practitioner or institution producing it.
